

My Bloody Valentine **"Don't Ask Why"**

Visit "[Don't Ask Why](#)" on MotoLyrics.com

See all your sorrow
But be happy tomorrow
From the back of my mind
I was searching and I

From the look in your face
I believe, it's not too late

See where you are
When did we go that far
From the things that we said
I was wishing us dead

Turn around to the fool
Who believed, don't ask why

From the look in your face
I believe, it's not too late

Pillow, pretend
That I do not defend
My own love in the back
Need no question to ask

If you need to see
The real, don't ask me

From the look in your face
I believe, it's not too late
