

My Bloody Valentine

"Golden Star"

I always felt so far from you
Like something wasn't right
But tonight
I rest my head inside the crook of your arm
And I feel like a golden star
Exploding
Tonight we are full
Tonight we rejoice
Exploding
You are my golden star
Exploding
One, two
Though everything has come undone
The distance between us closes
And everything is suddenly
Exploding
Tonight we are full
Tonight we rejoice
Exploding
You are my golden star
Explode
Tonight we are full up
Tonight we rejoice
Tonight we are full up
In spite we rejoice like stars
Explodingâ€¦
