Taste my (head) and twist my heart
Oh can't you see that I believe
Crawl around and kiss the ground
Oh come back come back come back
Come back with me
And I'll show you that I really believe
Come over me
Where I bleed I bleed I bleed
Hold my hand up I will be good
Oh you know what I need
Hold me down, don't you realise
Take me take me take me
Oh can't you see
I believe I believe I believe
Oh bury me bury bury bury me
Come with me and I'll come with you
Oh, I'll do whatever you will do
Play with me and I'll play with you
Ooh, ooh, ooh
