

## My Bloody Valentine

### "Magic Rabbit"

Visit "[Magic Rabbit](#)" on MotoLyrics.com

I had a magic that could sing  
Maybe I took her from her mother too early  
She never came out of recovery  
Even on summer days she'd complain  
She couldn't take the chill out of her bones  
Maybe I took her from her mother too early  
I put her outside in the sunshine  
All the rabbits died for supper tonight  
All the rabbits died in the spotlight  
I had a magic that would sing  
And boy oh boy was she a pretty thing  
By some great mystery she looked to me  
Like she was wearing thin  
Are you fading away magic  
Are you fading away  
Are you fading away all the rabbits died  
Are you fading in the spotlight  
Are you fading away magic  
Are you fading away all the rabbits died  
Are you fading away in the spotlight  
Are you fading my magic rabbit  
Magic, oh  
Are you fading away magic  
Are you fading away, rabbit, rabbit, rabbit!
