( Jedi Mind Tricks ft. Shara Worden - Servants in Heaven, Kings in Hell, 2006 )

Vinnie Paz :

Yeah, Jedi Mind

Vinnie Pazienza, the Enemy of Mankind

Servants in Heaven, Kings in Hell

Horrorcore, yeah, walk with me

Vinnie Paz :

I pop a pill and zone, my voice alone 'll fuckin' kill your bones

The AR-15 beam leave you still as stone

I'm workin' twenty-four-seven while you chill at home

I'm on the block with my people where the killers roam

I'm in a killer zone, where police can trap me

I'm ready to go to war with them like we Iraqi

We in the last days, only darkness passes

No more pure air, only bloody money ashes

Yeah, you need to recognize the God is sick

'Cause I was born inside of Egypt near the Gaza Strip

Don't make me cock the fifth, and put the flame to him

And thug it out like the Israeli's and Iranian's

Remember when I put the pen to pad

When I heard "Style Wars" by Lakim Shabazz

Then in the lab, everything was constructed with

Stoupe

And y'all know that no one fuckin' with us as a group

Shara Worden:

When all the light goes out where will you be?

When the darkness comes what will you see?

(When the lights go out)

When all the light goes out where will you be?

(When the lights go out)

When the darkness comes what will you see?

Vinnie Paz :

I'm a cannibal corpse, .38 snub splatter your thoughts

Peel your skin off of your body like animal cloth

I'm the reason for the Carthage in Hannibal's force

I'm the reason for the carnage in parable's lost

And I'll put the heater right where your lungs at

And none of y'all would be around if I could bring Pun back

You want the horrorcore Vinnie? He bring that  
Along with the 44 militant gun rap  
I break bread with the brothers I trust  
'Cause I know that if I'm ever in some trouble, they bust  
Could never be us, we too raw for the rap now  
Anybody with a tape recorder can rap now  
I pull a twelve gauge shotty, you back down  
And then the last thing you hear is the gat sound  
From the city where they framed Mumia  
We gonna break him out, run up with them flames and  
heaters

Shara Worden:

When all the light goes out where will you be?

When the darkness comes what will you see?

(When the lights go out)

When all the light goes out where will you be?

(When the lights go out)

When the darkness comes what will you see?

Vinnie Paz :

Yeah, yeah, I carry heavy fifths, I'm a biological  
terrorist

If you ain't been in war, then you don't know what terror  
is

You try to help people but do nothin' like therapists  
It's basic rules to the game, cousin, you never snitch  
Or you can see the type of lead that my beretta spits  
Or send you through the torture chamber and behead  
the bitch

Yeah, I'll put your body to the blades and choppers  
And teach you about the disruptive symbol of chakra's  
If you believe what they tellin' you, the beast and them  
won

That's why I speak about survival and need for a gun  
I stand for what them thugs is reppin'

But they don't know the government is usin' drugs as  
weapons

And drug injections, was taught by the prophets before  
About the cavalry of shadowy profits of war  
It's hard of grip, so I spit it at different degrees  
But the inner earth holds more water than seas

Shara Worden:

Who's gonna save you when all the lights go out

It's time to reconcile (?), how you gonna go, how you  
gonna go?

Vinnie Paz :

Servants in Heaven, Kings in Hell

Shara Worden:

When the lights go out, when the lights go out

When the lights go out, how you gonna go?
