Verse 1:

I'm trying something different
you had me at goodbye
usually they listen
and look me in the eye
i can tell you want it baby
but you just wont say it (oh no)
you want me to be your lady
but your trying to play it (oh no)

Pre-Chorus:

it's the way you walk away from me
it's way you don't wait patiently
it's the way oh
its the way oh

that you say no
to me

Chorus:

I wont take no
you don't gotta gotta go
no ones ever denied
I gotta get
I gotta get
I gotta get you
theres something bout the way
that you never try
no ones ever
walked outside
I gotta get
I gotta get
I gotta get you
'cause you had me at goodbye
