

## Malpraktis "Mother"

Visit "[Mother](#)" on [MotoLyrics.com](https://MotoLyrics.com)

She protects us when we're near  
she don't know but we're right here  
she can see that we're like her  
loving you she's loving me  
she'll always be there (through thick or thin)  
through love and in hate she cares  
mother mother i know you care  
loving you and you're loving me  
she can see that we love her  
she don't know but we care too  
i can see you're just like me  
loving you she's loving me  
she'll always be there (through thick or thin)  
through love and in hate she cares  
mother mother I know you care  
loving you and she's loving me  
She'll always be there (through thick or thin)  
through love and in hate she cares  
mother mother I know you care  
loving you and she's loving me
