Once in a lifetime i could be so far away
Once in a lifetime I thought everyone was gay
once in a lifetime everyone was still around
once in a lifetime
Once in a lifetime you could be so far away
once in a lifetime everyone was still my friend
once in a lifetime everyone left and ran away
once in a lifetime
once in a lifetime i could be so far away
once in a lifetime i thought everyone was gay
once in a lifetime everyone was still my friend
once in a lifetime
