8 Balls

Wedge of a sum inside our members  
Loading our guns to cock at each other  
Tongues will lash til you're cut in two  
Deadly the poison when the fire is loosed  
When the fire is loosed, when the fire is loosed

Please baby breathe  
Please can you breathe  
Peace

Please baby breathe  
Please can you breathe  
Peace

Eight balls for some hearts for another  
Weapons of choice under the covers  
Two guns inside the head seeking the other  
Capture the hunter or he will shoot 'til he's dead  
Shoot 'til he's dead  
Shoot 'til he's dead

Please baby breathe  
Please can you breathe  
Peace

Please baby breathe  
Please can you breathe  
Peace

Darling won't you stop arguing  
Stop arguing

Darling won't you stop arguing  
Stop arguing  
Stop arguing, stop arguing, stop arguing
