Say if the lights are really low enough to play.  
Can you catch me when I'm fallin' down?  
I'll control the moment if you try to make the most of  
this,  
And could you always call me when you maybe walk  
away.  
Would you stay right here then I'll tell you that someone  
out there loves you?  
If you stay right here then I'll tell you that someone out  
there loves you after all.  
Sometimes these things can always be so small,  
And sometimes you could live and I can all the time to  
catch this phrase and  
Try to make the most of this and could you maybe kiss  
me when we decimate the stars?  
And would you stay right here then I'll tell you that  
someone out there loves you?  
If you stay right here then I'll tell you that someone out  
there loves you.  
If there's no one, no one out there.  
If there's no one, no one who cares.  
Is there no one, no one out there?  
Is there no one like you to share?  
But would you ask yourself, would you ask yourself?  
Stay!  
And would you stay right here then I'll tell you that  
someone out there loves you?  
And would you stay right here, stay right here, stay  
right here, stay right here, stay right here,  
Stay with me, stay with me, stay with me, stay with me,  
stay with me, stay with me, stay with me,  
Stay with me, stay with me, stay with me, stay with me!  
Stay!  
Stay!  
Stay!  
Stay!
