--From The EP Way To Start This--

I like it when you go "oh,oh" you've got that
diamond ring "oh,no" and you think your so
"oh,oh" You better watch out before you walk right
through me, while you licking your lips and making
room for that gangster swing. Do you really think it's
happening?

I get that you like the attention, and I bet your
forgetting to mention all the god damn things that you
put me through. For some stupid reason I keep running
back to...

You can take your designer smile, stop in and stay for
awhile, but I won't take it back. No I won't take you
back. You can buy a million red roses, scratch that,
make them golden, but I won't take it back. No I
won't take it back

I like it when you got "oh, oh" You've got that
diamond ring "oh,no" . What do diamond rings have
to do with anything but disguising what's
underneath? You've always liked make believe. I say
"glamour kills" you say "so do girls" but you're
the one who has to impress that chachy with your close.

forgetting to mention all the god damn things that you
put me through. For some stupid reason I keep running
