Say goodbye, I'm afraid, this hospital isn't the right way,  
feeling like, this life, is harder without you beside me.

Try to find, insight, to put me at ease with your passing.

I hope you got what you wanted in this world.

Fade out, all these memories of you.  
Fade out, they were all that I had.  
Fade out, all these memories of you.  
They were all I had.

Who am I, inside, and what should I do here without you.

I hope you got what you needed in this world.

Fade out, all these memories of you.  
Fade out, they were all that I had.  
Fade out, all these memories of you.  
They were all I had.

This is where it starts, this is where it will end, hardest part is goodbye,  
hardest thing to accept, everything that you were, was a lesson to me,  
I hope you hear these words, you meant so much to me.

Fade out, all these memories of you.  
Fade out, they were all that I had.  
Fade out, all these memories of you.  
They were all I had.
