Another night comes
I fall down on my knees
I keep praying and it's
always your face I see
I've got gold dust
shining on my hands
I've got a peace that I
can't even understand
more strength than I thought
I'd ever see
more courage than I thought
could ever be
you're a fighter baby
give it all you've got

and I hope you hear me
say tonight

hey Ellie
can you hear me sing your song
hey baby
I've been praying all night long
Jesus holds you
tightly in his arms
you know he'll never let you
come to any harm
hey Ellie can you hear me pray tonight
hey baby as I watch the morning light
can you feel all the love I send to you

I smile and watch the most
beautiful "Blue Moon"
when I see it
it makes me think of you
I can't help but smile
every time I do
and I hope you hear me
say tonight

hey Ellie
can you hear me sing your song
hey baby

I've been praying all night long
Jesus holds you
tightly in his arms
you know he'll never let you
come to any harm
hey Ellie can you hear me pray tonight
hey baby as I watch the morning light
can you feel all the love I send to you

hey Ellie
can you hear me sing your song
hey baby
I've been praying all night long
Jesus holds you
tightly in his arms
you know he'll never let you
come to any harm
hey Ellie can you hear me pray tonight
hey baby as I watch the morning light
can you feel all the love I send to you

hey Ellie
can you hear me sing your song
hey Ellie
can you hear me sing your song
hey baby
can you hear me sing your song
