can't you just shut your mouth
and leave me alone
I'm still lying here
but I'm long gone

tell your friends I said hello
and their arrogance makes me sick

you could beg me on your knees
I wouldn't even care
I don't hear you I don't see you
pretending you're not there

you sing out your sorrows
into my face you stare

but I won't give you credit
I'm too much aware

can't you just shut your mouth
and leave me alone
I'm still lying here
but I'm long gone

tell your friends I said hello
and their arrogance makes me sick
now you're gone I feel free
you stabbed me in the back and spread
fucked up lies about me

you could beg me on your knees
I know you wouldn't care
I won't hear you I won't see you
I wouldn't know you're there

can't you just shut your mouth
and leave me alone
I'm still lying here
but I'm long gone

tell your friends I said hello
and their arrogance makes me sick

now you're gone I feel free
you stabbed me in the back and spread
fucked up lies about me

tell your friends I said hello
and their arrogance makes me sick
now you're gone I feel free
you stabbed me in the back and spread
fucked up lies about me
