Now, lost in the middle of nowhere  
Forgotten by human conscience  
Kingdom of unfailing sufferings  
Unaware by all beliefs

Black sky...the eternal cycle  
Soulless bodies...the eternal cycle

We're blind by its greatness  
Its shadow hangs over our life  
Black sky hangs over our doubts  
Kingdom of blood and ice

Black sky, world's perdition  
Game of time, the eternal cycle  
Soulless bodies, domination  
Game of time, the eternal cycle  
Lost, captive, we're waiting for the truth  
Betrayed by time, we forget to remember

Now, lost in the middle of nowhere  
Kingdom of unfailing sufferings

We're blind by its greatness  
Its shadow hangs over our life  
Black sky hangs over our doubts  
Kingdom of blood and ice

Black sky...the eternal cycle  
Soulless bodies...the eternal cycle
