Lost in dimation, lost in pain,  
I'm there prisoner of war, prisoner of life,  
I'd like to tell you about my secret and fears  
But none human words could translate my torpors

I'm suffering from life, I'm waiting the return  
I'm ll death, I can smell his breathe...

Victim of my questions, victim of my answers  
I shun truth, I shun death  
Deny the obvious, think about life...

Victim of my Knowledge  
Victim of my power  
I shun thurh, I shun death...

Master, let me die  
Lost, lost in dimation  
Lost, lost in pain  
I'm there prisoner of the life  
Master, let me die

I'm suffering from life  
I'm waiting the return
