I used to listen to the radio  
And I don't guess they're listenin' to me no more  
They talk too much but that's okay  
I don't understand a single word they say  
Piss and moan about the immigrants  
But don't say nothin' about the president  
A democracy don't work that way  
I can say anything I wanna say

So fuck the FCC  
Fuck the FBI  
Fuck the CIA  
Livin' in the motherfuckin' USA  
People tell me that I'm paranoid  
And I admit I'm gettin' pretty nervous, boy  
It just gets tougher everyday  
To sit around and watch it while it slips away  
Been called a traitor and a patriot  
Call me anything you want to but  
Just don't forget your history  
Dirty Lenny died so we could all be free
