We got a lot of things, but they don't matter
The words I sing, they're just chatter
There's nothin' I could say to you
That means as much as what I do

We got a lot of hope and the best intentions
Stuck inside of our own conventions
There's nothin' I could say to you
That means as much as what I do

Oh woah oh
Where you wanna go oh
It's about that time, that you and I
Ditch this town start livin' right

Oh woah oh
Where you wanna go oh
It's about that time, that you and I
Ditch this town start livin' right

We got a little time, I can taste it
Put your hand in mine, let's not waste it
There's nothin' I can give to you
Just a couple things that I can prove

So pack up your clothes and let's get goin'
Where we're gonna go, no way of knowin'
There's nothin' I can give to you

Just a couple things that I can prove to you

Oh woah oh
Where you wanna go oh
It's about that time, that you and I
Ditch this town start livin' right

Oh woah oh
Where you wanna go oh
It's about that time, that you and I
Ditch this town start livin' right

Out my door with nothin' but my pride you see
We're gonna be
Rollin' stones with mossy backs
Clean shavin' hobos on the railroad tracks
Outta this place and droppin' like a dime you see
There's nothing here but time we know, we need to go
We got burnin' hearts and achin' souls

Oh woah oh
Where you wanna go oh
It's about that time, that you and I
Ditch this town start livin' right

Oh woah oh
Where you wanna go oh
It's about that time, that you and I
Ditch this town start livin' right
