My eyes doesn't look always the beauty of mistakes  
and doubts remind me that i even should not try  
to watch all those sleepless nights  
you need some time to think that you don't want to lose  
that you've already lost!

You said there's going to be another chance to shine  
i..d never want to let you down  
i've tried like everyone, but at the night i can't come  
back with you  
i'm trapped tonight

We felt like this was not enough even for us

I..m stand right here but no one see me  
where i..m going then?  
life, wait for me , why do you escape from my hands ,  
wait for me  
You said there's going to be another chance to shine  
i..d never want to let you down, take me back  
i've tried like everyone, but at the night i can't come  
back with you  
i'm trapped tonight

My challenges , my fears , i have let'em all behind
