

Eleventy Seven "Anti-Adieu"

Visit "[Anti-Adieu](#)" on MotoLyrics.com

Sometimes I don't know what to do cause I'm always
thinking about you all the times we had together I
hope they last forever and every single word you ever
said goes round and round inside my head jus
promise me that you'll be true and I'll go crazy over you

Say everything is fine. Don't let me waste my time your
eyes will always shine forever lost in mine

I'm so caught up in yesterday I run out of things to say
the only thing that I can't see is life
without you here with me I hope you'll call me on the
phone cause I don't want to be alone somehow you
make this all ok and all my problems go away

[chorus]
