Damn...
I never thought it would end like this
There is just something I can say
To change your mind
Listen to me

[Verse 1:]

You really was the kind of like saying goodbye (bye)
It didn't mean much to you now I'm losing my mind
(mind)
All you had to say was don't tell me to kiss and make
up
No kind of explanation is no no...
Waiting for me to reply, what do I say (what do I say)
I thought of being without you just hurts me baby (just
hurts me baby)
Where do I go, what do I do without you here in my life

[Chorus:]

Another break up (break up)
What am I gonna do with my life (my life)
With all the broken pieces of my heart (my heart)
And the thought we be apart
I'll be there for you when it was you and me
Another break up (break up)
What am I gonna do with my life (my life)
With all the broken pieces of my heart (my heart)
And the thought we be apart
I'll be there for you when it was you and me

[Verse 2:]

You got my head spinning when losing control
If it doesn't matter, can't believe it is too [?]
We cussing and fighting ridin in loops
Wish I can make it clear to you before you walk away
Get off the phone, never forget all the pain
Forget all the times we made each other cry baby
Why gotta think of all the things we say
My... my... my... my baby

[Chorus:]

Another break up (break up)
What am I gonna do with my life (my life)
With all the broken pieces of my heart (my heart)
And the thought we be apart
I'll be there for you when it was you and me
Another break up (break up)
What am I gonna do with my life (my life)
With all the broken pieces of my heart (my heart)
And the thought we be apart
I'll be there for you when it was you and me

[Hook:]

Another break up
Break up... (baby)
Break up... (baby)
Break up... (ohh)
Break up... (listen to me)
Why can't seek it, don't give up
Ohh no... oh no...
How do I think you go
Can't bare to see you leave
I want you here with me for all eternity

[Chorus:]

Another break up (break up)
What am I gonna do with my life (my life)
With all the broken pieces of my heart (my heart)
And the thought we be apart
I'll be there for you when it was you and me
Another break up (break up)
What am I gonna do with my life (my life)
With all the broken pieces of my heart (my heart)
And the thought we be apart
I'll be there for you when it was you and me...
