damn i miss you so much
ohh baby
baby lets make this right
i love you
listen

so listen i know we had our ups and downs
but i promised that here i'd stand
forever i would be your man
now (?) is coming yeah
no more fights and argumens
but through it all come love
and breaking up was a part of it

i love you my hearts true
i miss you your the only one that i want
painted pictures of our memories
and where we used to be
ohh can we start over

can we start over
can we start over
can we start over
can we start, start over
can we start, start over
can we start, start over (baby)
can we start

i hate ya but i love ya life aint the same without ya
and i know that we've said some things we dont mean
but as (?) losing out on something it was so damn real
and everything we've made baby (baby)

i love you my hearts true
i miss you your the only one that i want
painted pictures of our memories and where we used
to be
ohh can we start over

can we start over
can we start over
can we start over

can we start over
can we start
can we start, start over
can we start, start over (ohh baby)
can we start, start over

did you ever think about me
did you ever dream about me
did you ever wonder where i am
do you still love me the same
do you ever wake up in middle of the night
crying for me, crying for me, crying for me
oh, ohh baby ohh
i miss ya baby
i miss ya baby
i love you baby yeahh
can we start over

can we start can we start
can we start over
can we start over
can we start, can we start over
can we start, ohh yeah
can we start, start over
can we start, start over
can we start, start over
can we start, start over
can we start, start over
can we start, start over
can we start, start over
can we start, start over
can we start, start over
can we start, start over (baby ohh)
can we start, start over

i know this is for you
i love you
oh my baby
lets start over
