Did i hear you say

There's a real reason there for you to stay

Under your breath i hear your soft voice pray

That we'll still be friends

I hear you talking but you're just not makin' sense

I've been hopin' for a happy endin'

Now i know that there won't be any

Chorus: Just a few words too many

In my head

A few words too many

In this bed

A few words too many

Left unsaid

I wish that we were strangers

we could start again, start again, all over...

A broken shadow falls across your face

As you hesitate

Trying to think of all the things you need to say

Better place the truth it lies at my feet

As you turn away

Sometimes silence has a way making peace

I've been hoping for a happy ending

Now i know that there won't be any

(chorus)

..again

Bridge: Staring at the ceiling

Wondering just what you're feeling

Was it me? or was it vou?

What's the difference if i knew?

Maybe i wouldn't feel so empty if i hadn't heard...

(chorus)

start all over again

oooh...we could start again

We could start again

Round and round and round in my head

Wait a minute, what did you say?

Did i hear you say?
