Verse 1

Come inside .. don't walk no further
What you want ain't here no longer
Garbage truck just got it .. ten minutes ago
Why you have so much confusion
Wasn't expecting this conclusion
Ain't no games, Optical illusion no
Thought that I'd run down on myself
Thought that I needed all of your help
Thought maybe I couldn't let you go
Thought that I need it all of your strength
Thought that I didn't have my own distance
But little did you know

Chorus

That I am so over you
I am so done with you
No more guessing, no surprise
No pretending, no more cries
I am so glad we are through
I am so over you
I am so done with you
No more questions
No more lies
No more drama, no sad goodbyes
I am so glad we are through

Verse 2

I admit that I was foolish
I let you walk me into this bullshit
Without realizing all you had to show
Blinded by love with no affections
Steered me in the wrong direction
But in my own time I found a way to let you go
Doing better probably than you will ever be
Being wiser I can finally see for me
Being stronger I can take anything you throw

Hook

I know now that I don't have to,
put up with someone that's not true.

You'll miss out on what i'm offering, so be mad cause u
just lost me

Chorus

That I am so over you
I am so done with you
No more guessing no surprise
No pretending, no more cries
I am so glad we're through
I am so over you
I am so done with you
No more questions, No more lies
No more drama, no sad goodbyes
I am so glad we are through

Hook

I know now that I don't have to,
put up with someone that's not true,
You'll miss out on what i'm offering, so be mad cause u
just lost me

Chorus

So over you
I am so done with you
No more guessing no surprise
No pretending, no more cries
I am so glad we're through
I am so over you
I am so done with you
No more questions
No more lies
No more drama, no sad goodbyes
I am so glad we are through

Hook (Over Lapse)

Doing better probably then you'll ever be
Being wiser I can finally see for me
Being stronger I can take anything you throw.
Doing better, probably then you'll ever be
Being wiser I can finally see for me
Being stronger I can take anything you throw.
(I know now that I don't have to,
put up with someone that's not true,
You'll miss out on what i'm offering, so be mad cause u
just lost me)
