Shake down
I need a spark before I break down
West bound
I'm searching for someone to wrap my arms round
How come everytime it feels so right
I get it wrong?

Where have all the good girls gone?
I've got my radar on
My inhibitions lost
I've got a feeling
I'll find the real thing
I've got my fingers crossed

She's got a bad mouth
The fire on her tongue
She wants to make out
It's all the same now
making love without a cause is getting played out
How come everytime I get a grip
I can't hold on?
Where have all the good
Where have all the good girls gone?
I've got my radar on
My inhibitions lost
I've got a feeling
I'll find the real thing
I've got my fingers crossed
I've got my fingers crossed

Cause everyone gets lost sometimes
But what's the meaning?
It's just a feeling
I've got my fingers crossed
I've go my fingers crossed

Where have all the good girls gone?
I've got my radar on
My inhibitions lost
I've got a feeling
I'll find the real thing
I've got my fingers crossed

I've got my fingers crossed
because everyone gets lost sometimes
But what's the meaning?
It's just a feeling
I've got my fingers crossed
I've got my radar on
My inhibitions lost
Give it time
I'll find the real thing
I've got my fingers crossed
