Don't mess me around
Now that I'm here
And you got what you want.
I don't suffer fools
Or boys on the run
So don't come the cowboy with me

You've got the feeling like
I'm all in love
You've got the feeling like
You're dangerous
Something along the lines of insecure
That's how you make me feel

There's a bullet in my heart
With your name on it
And it hit me like a hurricane
Just when I thought that I
Could get over you
There's a bullet in my heart again
Boom boom
There's a bullet in my heart again

You give me that smile
Boy you could charm
Anyone that you want.
I'm so in denial
Thinking I'm strong
When I'm weak for your touch

You've got the feeling like
I'm all in love
You've got the feeling like
You're dangerous
Something along the lines of insecure
That's how you make me feel

There's a bullet in my heart
With your name on it
And it hit me like a hurricane
Just when I thought that I

Could get over you
There's a bullet in my heart again
Boom boom
There's a bullet in my heart again
Boom boom

You don't want to mess with me boy
Boy
You don't want to mess with me boy
Boy

There's a bullet in my heart
With your name on it
And it hit me like a hurricane
Just when I thought that I
Could get over you
There's a bullet in my heart again
Boom boom
There's a bullet in my heart,
Boom boom
