It's so good to see you when you're back on the scene  
I look for you all day, you know what I mean.  
But when the sun goes down  
from this moment you always come around  
You parfume the air,  
your black dress is always there.

Oh my lady lady lady lady lady night  
Oh my lady lady lady lady lady night  
Oh my lady lady lady lady lady night  
Oh my lady lady lady lady lady night  
Lady night

You look so fine this evening lady night  
Your clothes in high fashion, your hair combed just  
right.  
And when you pass me by  
my blood pressure begins to rise so high,  
I begin to sweat  
Oh I've never kissed you night.

Oh my lady lady lady lady lady night  
Oh my lady lady lady lady lady night  
Oh my lady lady lady lady lady night  
Oh my lady lady lady lady lady night  
Lady night

And what are you going to do before you leave  
Look at all of the fellows what you love indeed.  
To see you in the day  
I'm sure there's no price to great to pay  
You stay out of sight  
You'll never return 'till night

Oh my lady lady lady lady lady night  
Oh my lady lady lady lady lady night  
Oh my lady lady lady lady lady night  
Oh my lady lady lady lady lady night
