"Take Me Back Home"

Board a train, take it east
Find myself again
Western winds drove me there
Lonely stars, take me back home

I chased a dream, I read about
In a magazine
And lost myself, in the dark
Lonely stars, Take me back home

Someday I'll find
A truth in this life
Till then
When I go, leave me be
Let me find my peace
Coastal town, summer skin
Lonely stars, Take me back home

I can find my way
Just leave me be
and say
see you soon, someday (2x)
