by the way I say your name, I always know
and by the way, I always say yr name
so let's talk about anything
you'll make up drinks, I'll make up things
and we're never boring 'cause nobody knows

by the way I say your name, I always know
and by the way, I always say yr name
nothing changes but the words
and the weather, it's better
and we'll get older and we'll get good

Michael D., David K., best looking boys go all the way
home is where they hang out, is where they go.
