I've been up and down this lonely town  
Never found what I was needing  
Running out of these impossibilities  
Never thought I'd see just what I'm seeing

It took a while to get through  
All of my bad luck  
Ever since I met you  
I feel like I've just struck gold

Baby when it comes to love  
You know you've got the Midas touch  
It's gold

That heart inside of you  
Is 24 carat through and through  
Just keep on doin' what you're doin'  
It's gold

Your angel face  
And how you say my name  
That magic way your kisses linger

That sexy laugh  
And that 'lectric hair  
It's all got me wrapped around your finger

I don't want to fall asleep  
Don't want to close my eyes  
Casue all night long I wanna keep  
Watching you shine like gold  
Baby when it comes to love  
You know you've got the Midas touch  
It's gold

That heart inside of you  
Is 24 carat through and through  
Just keep on doin' what you're doin'  
It's gold

Yeah it took a while to get through  
All of my bad luck

But ever since I met you  
I feel like I've just struck gold

Baby when it comes to love  
You know you've got the Midas touch  
It's gold

That heart inside of you  
Is 24 carat through and through  
Just keep on doin' what you're doin'  
It's gold

Yes it's gold

God everything you do  
Is making me fall in love with you  
It's gold
