I wish they made pills to cure this disease
that's slowly killing me
i try to keep it together

The days are so cold and nothing comes easy
it's a struggle that that leads the way
but still i keep it together

The walk is blind
and life itself is so complicated
lets take the time
to look within ourselves for answers

Tell me now, tell me now
everything will be alright
show me how, it can get better

Tell me now, tell me now
everything will be alright
show me how, it can get better

I know that this it kills you everyday
livin' with the pain
but still ikeep it together

Did that seem hard, and so unforgiving
like a death-defying dream
you could keep it together

The walk is blind
and life itself is so complicated
lets take the time
to look within ourselves for answers

Tell me now, tell me now
everything will be alright
show me how, it can get better

Tell me now, tell me now
everything will be alright
show me how, it can get better

Love it or leave it, look at yourself
like I'm livin' alone or with someone else
when you look in the mirror what do see?
Am I losing my mind or is it me

Is it me?

Tell me now, tell me now
everything will be alright
show me how, it can get better

Tell me now, yeah tell me now
it can get better
it can get better
it can get better!
