### "Dear Whore"

Visit "[Dear Whore](#)" on MotoLyrics.com

I'm just looking for someplace to hang my mind on

Not looking for conversation

Everybody knows how hard it is to express themselves

I only need to know why my way is always wrong

Abandoning me

I'm just f\$&king; my own hand for relaxation

And expressing self-affliction

My abilities maintain my animosity

I hate you because you didn't even try

What I fight myself for eventually finds its way home

Abandoning me

I should give up on finding anyone

I used to search for brief connections

The whole world is coming down

Abandoning me
