"Let It Go"

The head-biting ties us
No more after today
Skies opened up
I got what I want
Fighting always suits us
But not since you've been away
Rain washes down
Hides the sound
You keep taking care of you, I'll take care of me
Let it go
Tiny life between us
Children make mistakes
But twenty-two and twenty-four ain't all that young
Soon you will discover
Why there can be no way
After good-bye
I will not try
You keep taking care of you, I'll take care of me
Let it go
