My heart was once concealed  
Searching for what was real  
Precious feelings endured the strife  
All those lonely, lonely nights  
Confused as our hearts may be  
True love will help set us free  
Baby come and take my hand  
Together we can make it stand

(Chorus)

Love reveals what's real, what's real  
Love reveals what's real  
Love reveals what's real  
Love reveals what's real  
A song, a laugh, a patient heart  
Come on my love and let's make a start  
Love is our binding strength  
Timeless beauty through any length  
A journey only we can take  
A joyous love I know we can make  
Together I know that we belong  
Come on baby take me home

(Chorus)

Love reveals what's real, what's real  
Love reveals what's real  
Love reveals what's real  
Love reveals what's real

Regardless of what circumstance  
Come on babe let's take a stance  
Please my love believe in me  
Perfect love is our destiny  
And if we take this chance  
I know we can make it stand  
Come on my love and take my hand  
Our love will last and last

Love reveals what's real, what's real  
Love reveals what's real  
Love reveals what's real  
Love reveals what's real.
