Baby, can you tell me
Is there something on your mind
You tell me that you love me but then you start to cry
Baby, let me hold you close and help you to believe
You're the only one inside my heart
The only one I need

I know its complicated just making sense of life
I know you hesitated, you been hurt too many times
But I ain't gonna let you down
Know this much is true even if the world should end
I'll be here for you

I don't wanna live without you, baby
I don't wanna find somebody new
I cant stop loving you, I can't stop loving you
Girl, you know I'd die before I hurt you
Never let you down I won't desert you
I can't stop loving you, I can't stop loving you
So if the stars fall from the sky and the sun stops
shining too
I'll be by your side cause I can't stop loving you

You could wait forever while the world is passing by
Love lies in the balance of hope and compromise
It takes more than memories or pictures on a wall
A little trust, a lot of faith will get us through it all

I don't wanna live without you, baby
I don't wanna find somebody new
I cant stop loving you, I can't stop loving you
Girl, you I'd die before I hurt you
Never let you down, I won't desert you
I can't stop loving you, I can't stop loving you
So if the stars fall from the sky and the sun stops
shining too
I'll be by your side cause I can't stop loving you
