Well if you don't think you can fight this storm
and if you don't think that you can keep us warm
well if you don't think that you can comprehend
and if you can't find a means to an end

I thank-you
thank-you(x3)

Well if you don't think that you can hold on tight
and if you don't think that you can start this right
well if you can't wait till dark to see the stars
and if you don't think the answer lies on mars

I thank-you
thank-you (x3)

If I could, simply say to you it's just the way am (x2)
Well if you don't think that you can figure
and if your know not sure you know what it's about
well if not sure quite what this will all bring
and if constantly you hear a high pitched ring
I thank-you
thank-you (x3)

If I could, simply say to you it's just the way am (x2)
If you wanna stick around with me,
sing my love there's no where I'd rather be (x2)
Well if you don't think you can fight this storm
and if you don't think that you can keep us warm
well if not sure quite what this will all bring
and if constantly you hear a high pitched ring

I thank-you
thank-you (x3)

I thank-you
thank-you (x3)
