So call me the victim,
of circumstances but...
I own up to what I've done.
While you cower behind, who you can blame it on.

Break me down, this ain't about the money anymore.
Fight me if you dare!

Just keep it together,
don't let yourself get caught.
Caught up in what they want.
Cause you know your better,
than what they say you are...
in fact you're everything they're not.

Break me down this aint about the money anymore.
Fight me if you dare!
Cause I am the monster. I'm the one you fear.
You needed a monster, well I'm right here.

We all have a monster.
We all are the monster.
You all are the monsters!
So I'll be your monster!

Break, me down!
Break, me down!
Cause I am the monster. I'm the one you fear.
You needed a monster, well I'm right here.
