Enveloped in fog  
Desolate road  
Time is turning into beautiful world  
Spread my palms  
I glance down  
Mountain breeze blows against your face  
Season colour  
Hang low  
I ask God to do everything

So beautiful world  
Sky high  
The season advances to a wintry scene  
Angles of light  
Time creeps  
We were freezing in the cold that day  
All our love  
Can you see it, too?  
It seems like the beginning of snow for all

Oh, I'm not here to make  
some kind of judgement  
Oh, My heart feels so wide  
and so strong  
And I will pray to do  
everything well
