Get thee behind me, Satan

I want to resist

But the moon is low and I can't say "No"

Get thee behind me

Get thee behind me, Satan

I mustn't be kissed

But the moon is low and I may let go

Get thee behind me

Someone I'm mad about

Is waiting in the night for me

Someone that I mustn't see

Satan, get thee behind me

He promised to wait

But I won't appear and he may come here

Satan, he's at my gate

Get thee behind me

Stay where you are

It's too late
