I send a message to you, I close my eyes and hope it
gets through
It's in the language of love, it's in your touch, there in
your mouth
I wonder if you hear me tonight, sometimes you're so
far away
I wanna have you near me tonight, do you belong to me
Chorus:
Who loves you, who you gonna run to
Who loves you, whatcha gonna do about it
Who loves you, who you gonna run to
Who loves you, whatcha gonna do about it now
So tired, I can't fall asleep, I close my eyes and breathe
in the heat
I've got this passion for you, like inspiration out of the
blue
I wonder if you hear me tonight, sometimes you're so
far away
I wanna have you near me tonight, do you belong to me
chorus
(Solo)
Who loves you, who you gonna run to
Who loves you, whatcha gonna do about it
(repeats 2x)
chorus
Whatcha gonna do about it now
I send a message to you, I close my eyes and hope it
gets through
