You want me to make you feel
Like you ain't never felt before, baby?
C'mon baby keep it up
C'mon what you want, c'mon baby
C'mon baby keep it up, c'mon, c'mon, c'mon

Tell me all your dirty little secrets

So you wanna do something that's a little bit not too
Afro-centric, erotic, space-groove, jazz, funk-acid,
punk?
[Incomprehensible] about that
Come on, baby

Tell me all your dirty little secrets

Oh, it's all about power baby
You know what I'm sayin', oh it's all about power, baby
It's all about sleepwalking through
This endless night

Tell me all your dirty little secrets
Tell me all your dirty little secrets

I just wanna kiss the boys
I just wanna kiss the boys
I just wanna kiss the boys
And make them cry

I want you to take me some place
That I've never been before
I just can't control myself
I mean you don't want me to control myself, do you?

Tell me all your dirty little secrets
Tell me all your dirty little secrets
Dirty little secrets
