

My Life With The Thrill Kill Kult

"My Little Banana"

Visit "[My Little Banana](#)" on MotoLyrics.com

My little beautiful pretty pretty banana
You are all that I'd like
And I want to share you with all my friends,
Family and loved one
I just open all your skin then I take a small bite
Once I had a wonderful dream about you
We were dancing in the sea
And the fishes all swimming around us

Come with me so I can show you big boat that I built
Let's go for a ride
I promise it will fly to the sky where no one cries
Banana you will see the clouds beneath our feet
To the space where twinkle stars saying hello and smile
They're shining bright happily
Will we see each other any more after ten years?
Why don't you tell me you're falling I'll and not happy?

Please stay well and be tasty
I don't want to see you be grumpy
Please stay strong and be healthy
We still have a lot to do like exploring the whole world
You're the only one can't be replaced
Hey you, listen, banana you're the best, man!
