Slow down and talk to me baby
You're driving just a little too fast
Just like your motor, I'm ready hot and built to last
Hell, if cruising is your poison, let me cruise you

I'll take you far away, I never want to lose you
Come walk with me, baby, I'm headin' to the other side
How far are you going? Look at you, baby
Are you hungry for a place to feed?

Like a rebel with no action needs
A devil's satisfaction for speed
If power is the passion that controls you
Drag your passion over here

I wanna overload you, come walk with me, baby
I'm headin' to the other side, here we go, look at you,
baby
Are you hungry for a place to feed?
Let's go for a walk. don't I even deserve a good-night
kiss?
