I always wanted to be a movie star
I always wanted to be a movie star

Why am I doing this? Why do I have to do it?
And why can't I just be an ordinary person?
Why am I doing this? Why do I have to do it?
And why can't I just be an ordinary person?

I always wanted to be a movie star

That was a day that she started knowing
She had a gift that started showing
That was a day that she started knowing
She had a gift that started showing

The Starmaker pulled his strings
He gave her golden wings
But vicious snakes invade her world
With cigarettes and purple pillz

How do you like the accommodations?
Well I guess they're fine, honey

Man on a red horse, man on a red Harley
Girl on a mind trip lost on the Mindway
She commits to a custom bike guy

Over sexed rebel of rubber
Tired, punched and numbered
Off with her head, said the king of lightning

Would you like to come along for a ride?

More life, more love, more freedom, more choice
More life, more love, more freedom, more choice
More life, more love, more freedom, more choice
More life, more love, more freedom, more choice

There is an occult explosion taking place in the western
world
There is an occult explosion taking place in the western
world

There is an occult explosion taking place in the western world

There is an occult explosion taking place in the western world

Girl on a mind trip lost on the Mindway
[Incomprehensible]

There is an occult explosion taking place in the western world

There is an occult explosion taking place in the western world

There is an occult explosion taking place in the western world

There is an occult explosion taking place in the western world

Would you like to come along for a ride?
I always wanted to be a movie star
I always wanted to be a movie star

Man on a red horse, man on a red Harley
Man on a red horse, man on a red Harley
Man on a red horse, man on a red Harley
Man on a red horse, man on a red Harley

Man on a red horse, man on a red Harley
Man on a red horse, man on a red Harley
Man on a red horse, man on a red Harley
