Come on baby, put your bottle down  
Feet out baby, I won't ever let you drown  
Pull the sheets off, become overcome with sound  
Follow children baby, we'll be found

Come on baby, let me help you out  
Open windows, let the demons out  
Lets go to mountains screaming all our doubts  
Follow children baby, we'll be found

The circling is never ceasing  
The poetry is never leaving  
The circling is never ceasing  
The poetry is never leaving

The heartache's always bleeding  
The spirit keeps on breathing  
The heartache's always bleeding  
The spirit keeps on
