Raining lilacs from the clouds  
Streams of water underground  
My face is wrinkled from a drought  
Freckles dimples hiding out

Hardest feelings, spotted cows  
Hoping wishing for the doubt  
No one's leaving your mind now  
They're haunting, they're aching

[Chorus]  
I don't know where the milkmen go  
I don't know where the green hides gold  
I don't know  
I don't know where the spirit shows  
I don't know if I wanna know  
I don't know

Hardest feelings, spotted cows  
Hoping wishing for the doubt  
No one's leaving your mind now  
No one's leaving your mind

[Chorus]

But the milk ain't love  
The milk ain't love no  
The milk ain't love no

Going bad as the winter goes  
That ain't love, no no no  
That ain't love, no
