I know what it's like  
To not feel the same in a while  
I know what it's like  
To not feel the pain in a while

You're thinking how life is so hard  
You're wondering how you got this far  
Don't wonder it away  
Or you'll wish your life away

I know what it's like  
When your finger's stuck and there's no erase  
I know what it's like  
When all the lines, oh God, they seem the same

You're thinking how life is so hard  
You're wondering how you got this far  
Don't wonder it away  
Or you'll wish your life away
