Woah don't you mind people grinning in your face
Woah don't you mind people grinning in your face
Woah Bear this in mind, a good friend is hard to find
Woah don't you mind people grinning in your face

Woah your mother, may talk about you, woah your your
sisters and your brothers too

They don't care how your trying to live
You know they talk, about you still
Oh but bear this in mind, a good friend is hard to find

Oh don't you mind, people grinning in your face
Oh don't you mind, people grinning in your face
Oh don't you mind, people grinning in your face
Woah Bear this in mind, a good friend is hard to find
Oh don't you mind, people grinning in your face
Oh you know the grin in your face, oh you know they
chop you up and down
Oh soon as your back is turned
You know they try and beat you down
Oh don't you mind, people grinning in your face
Oh don't you mind, people grinning in your face
Oh don't you mind, people grinning in your face
Oh don't you mind, people grinning in your face
Woah Bear this in mind, a good friend is hard to find

Oh don't you mind, people grinning in your face
