I'm gone, I'm history  
She get's the best of me  
My mind drifts away and I'm instantly  
Off into another world  
Wishin' she was my girl  
And nothin' else matters at all  
I'm gone like yesterday  
To another time and place  
One sweet smile and I get swept away  
She gives me just enough to dream on  
And I'm gone

Sittin' at a table, conversation  
Me and my buddies, I follow what they're sayin'  
One hundred percent, of the daily events  
But the minute she walks in my direction  
Well there goes my span of attention  
One look in her eyes and I'm goin' for a ride

I've been comin' in here for quite some time  
I got it all figured out in my mind  
What I wanna say and today's the day  
Oh here she comes, heart be steady  
Play it cool, I got the words ready  
She says hello, and here I go

I'm gone, I'm history  
She get's the best of me  
My mind drifts away and I'm instantly  
Off into another world  
Wishin' she was my girl  
And nothin' else matters at all  
I'm gone like yesterday  
To another time and place  
One sweet smile and I get swept away  
She gives me just enough to dream on  
And I'm gone
