Wherever you are (wherever you are) I wanna be right  
there every moment  
wherever you are please understand my feelings for  
you baby  
I feel the heat swept off my feet I'm so in love I'm all  
shook up  
my mind in haze and I'm feeling crazy all I do is think  
of you  
all I want is your sweet love I'm standing here my mind  
is dreaming  
of the time when we first kissed boy boy it's your sweet  
touch that I miss  
Wherever you are (wherever you are)  
I wanna be right there every moment (I wanna be right  
there)  
wherever you are please understand my feelings for  
you baby  
Consumed my heart right from the start I'll let you know  
that I can't let go  
I close my eyes and I think of you please boy tell me  
what am I gonna do  
all I want is your sweet love I'm standing here my mind  
is dreaming  
of the time when we first kissed boy boy it's your sweet  
touch that I miss  
Wherever you are (wherever you are)  
I wanna be right there every moment (I wanna be right  
there)  
wherever you are please understand my feelings for  
you baby  
Why'd you go away (why'd you go away)  
come back to me baby stay (why don't you stay)  
can't take losing you (can't take losing you)  
I want you babe don't go away  
(wherever wherever wherever wherever babe)  
Wherever you are (I wanna be right there)  
I wanna be right there every moment (every moment  
every day)  
wherever you are please understand my feelings for  
you baby  
wherever you are (wherever you are)  
wherever you are please understand my feelings for

you baby  
Wherever you are (wherever you are) I wanna be right  
there every moment  
wherever you are please understand my feelings for  
you baby  
wherever you are I wanna be right there every moment  
wherever you are please understand my feelings for  
you baby  
Wherever you are I wanna be right there every moment  
wherever you are please understand my feelings for  
you baby
